### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 1-11 are allowed, as the prior art of record does not teach or suggest a magnetic resonance imaging assembly, wherein the second coil phase varied from the first coil phase to correct asymmetries with the imaging field, in combination with the remaining limitations of the claim.

Claims 12-16 are allowed, as the prior art of record does not teach or suggest a magnetic resonance imaging assembly, wherein the controller including logic adapted to vary the second coil phase and the first coil phase independently to correct the imaging field, in combination with the remaining limitations of the claims.

Claims 17-20 are allowed, as the prior art of record does not teach or suggest a method of producing a magnetic resonance image, wherein adjusting the second coil current and the first coil current provides phase-shift in the imaging field, in combination with the remaining limitations of the claims.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
